The best start in life

Welcome to BrightPath

Everything we stand for revolves around providing the very best in care for your children. Here at BrightPath, **we understand just how tough the decision and transition can be to send your child to school.**

Who is going to look after my child? Will they be safe? What will they do all day? Are they going to be challenged?

These are all questions we have wrestled with as parents. We would like you to consider us as an extension of home; a caring and nurturing place where your children are intellectually and emotionally stimulated by dedicated staff that are not only early childhood educators, but amazing human beings.

Curriculum

Children are naturally curious! **BrightPath's new BeeCurious Curriculum Framework celebrates learning as a joyful experience and aligns with children's natural curiosities.** It provides children autonomy through choices, guided explorations, and multiple forms of expression. Curiosity is captured through anecdotal records and educator observations as the children explore, create, discover, and dive into learning. Through play-based learning, inquiry learning is nurtured. The new Learning Framework allows children to explore the world around them, examining their environments and fostering their innate curiosity through hands-on interactions of their individual journey of learning.

It creates awareness of self, others, cultural diversity, global stewardship, community, and the natural environments. Setting the foundation for self-aware, open-minded, well-rounded children to thrive in a dynamic, diverse, global society.

BeeCurious

Curriculum Structure

Math Discovery

is all about building math concepts according to developmental scope and sequence of skills. Materials and framing may be changed out to meet with current interests, paired with targeted skill development.

Creative Discovery

focuses on self expression and joyful interaction with open ended materials, mediums, and tools. Process driven creativity is the goal.

Global Citizenship

will have children explore the world around them, learning the importance of values, culture, kindness and respect for all people, starting with their peers. Global Citizenship is not just being an active member of society, but being someone that contributes by celebrating and welcoming the diversity among us.

Building Connections

focuses on developing social emotional skills within the context of our classroom community. Belonging, connecting, cooperation, and uniting are all embedded within this topic.

Physical Literacy

will be a daily focus and includes both standardized and inquiry developed content. Ensure time spent in your outdoor learning environments showcases opportunities for learning while developing a love for being active.

Language & Literacy

is all about creating a love for language, an awareness of print concepts, the magic of mark making and ability to decode the world of sound.

STEM Discovery

STEM: Science, Technology, Engineering and Math are all incorporated into hands-on weekly projects that enable children to engage with peers to become critical thinkers and early innovators. Children will gain experience with the scientific process, using tools to solve problems, and putting their design and engineering ideas to the test, all while applying math concepts to help navigate each of these challenges!

Environmental Stewardship

focuses on children learning about our environment and how we can help keep it safe is vital to the future of our world. Children will explore nature, discuss ways of keeping it safe and take action in their learning communities to help make our world a better place.

Our Outdoor Learning Environments

The importance of outdoor play for young children cannot be overstated. That's why **we bring learning to the great outdoors!** Our playgrounds are equipped with materials and equipment that allow our teachers to bring the fun outside. Our outdoor learning centers are equipped with different activity centers so children can rotate among them and benefit from multiple experiences.

A photograph of two female educators and three young children sitting around a wooden table in a classroom. The educators are smiling and looking at the children. The children are engaged in a play activity with colorful toys, including a green and blue play structure and a pink ball. The background shows a typical classroom setting with wooden furniture and toys.

Our Educators

The individuals that make up our teams are **passionate** and strive to deliver the very best care for every child. We follow a robust recruitment process and onboarding training to ensure the best delivery of our programs.

Furthermore, we provide ongoing program and safety training that enable our educators to provide learning in safe and joyful environments. Each child's safety and well-being is our top priority. Our educators **support** children's play experiences while encouraging them to explore, discover and unleash their potential. Our educators are the ones who ultimately make our programs **fun and interesting**, and we trust them to make every day special.

Safety and Wellness

Entrances

All entranceways of our schools are secured by a **coded entry security system**, ensuring that only our families and teachers can enter the building unassisted. This was implemented to ensure maximum security and safety of the children. These security measures can be individually deactivated any time if needed.

Cleanliness

We incorporate Green Cleaning Best Practices with a focus on process and products. Daily cleaning with EPA Registered Sanitizers made from 100% non-toxic and biodegradable ingredients, and weekly disinfection using cutting-edge Electro-Static sprayers to target pathogens wherever they hide are just a couple of the steps we're taking to maintain a healthy and safe environment for your children.

Nutrition

Nutrition is essential to fuel optimal growth and development in order for children to reach their full potential.

At select locations, our lunches and snacks are catered or made from scratch in-house, using fresh ingredients sourced locally whenever possible. Our menu rotates on a four-week basis and is modified seasonally to offer variety and balance. Our guidelines reduce the intake of sugar and salt as we believe that food choices during childhood lay the foundation for life long eating habits.

All BrightPath centers are completely **peanut-free** and we work with the families of children that have other food sensitivities and allergies to ensure the safety and well-being of all children in our centers.

If your child requires a special diet for cultural or medical reasons, we will do our best to accommodate your family's needs.

Connect

We recognize that it is hard to find the time to stop and discuss your child's day with their educators at pick up. That is why BrightPath is proud to offer our complimentary family communication app that helps families feel **connected**.

Features

Digital Photo Album:

Access your child's portfolio filled with pictures and videos. Download the ones you love!

Center Updates:

Receive important messages, alerts and reminders from the center in real-time.

Daily Reports:

Check-in on your child's meals, snacks, sleep, toileting, activities and observations.

We can't **wait** to hear from you!
